

Brynteg CP School

ONLINE SAFETY POLICY

This policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Scope of the Online Safety Policy

This Online Safety Policy outlines the commitment of Brynteg CP School to safeguard members of our school community online in accordance with principles of open government and with the law. Schools should be aware of the legislative framework under which this Online Safety Policy template and guidance has been produced as outlined in the attached 'Legislation' Appendix.

This Online Safety Policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Brynteg CP School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

Policy development, monitoring and review

This Online Safety Policy has been developed and shared with:

- *headteacher/senior leaders*
- *online safety lead*
- *staff – including teachers/education practitioners/support staff/technical staff*
- *governors*

Consultation with the whole school community has taken place through a range of formal and informal meetings.

Process for monitoring the impact of the Online Safety Policy

The school will monitor the impact of the policy using:

- *logs of reported incidents*
- *monitoring logs of internet activity (including sites visited)*
- *surveys/questionnaires of:*
 - *learners*
 - *parents and carers*
 - *staff.*

Policy and leadership

Responsibilities

In order to ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the online safety roles and responsibilities of individuals and groups within the school.

Headteacher and senior leaders

- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community and fostering a culture of safeguarding, though the day-to-day responsibility for online safety may be delegated to the Online Safety Lead.
- The headteacher and (at least) another member of the senior leadership team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff.
- The headteacher/senior leaders are responsible for ensuring that the Online Safety Lead, technical staff, and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role.
- The headteacher/senior leaders will receive regular monitoring reports from the Online Safety Lead.

Governors

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy e.g. by asking the questions posed in the Welsh Government and UKCIS document This will be carried out by the senior management team whose members will receive regular information about online safety incidents and monitoring reports. A member of the governing body will take on the role of Online Safety Governor to include:

- regular meetings with the Online Safety Lead
- regularly receiving (collated and anonymised) reports of online safety incidents
- checking that provision outlined in the Online Safety Policy (e.g. online safety education provision and staff training is taking place as intended)
- reporting to relevant governors meeting

The governing body will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

Online Safety Lead

The online safety lead will:

- lead the Online Safety Group
 - work closely on a day-to-day basis with the Designated Safeguarding Person (DSP), where these roles are not combined
 - take day-to-day responsibility for online safety issues, being aware of the potential for serious child protection concerns
 - have a leading role in establishing and reviewing the school online safety policies/documents
 - promote an awareness of and commitment to online safety education across the school and beyond
 - liaise with curriculum leaders to ensure that the online safety curriculum is planned and embedded
 - ensure that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place and the need to immediately report those incidents
 - receive reports of online safety incidents¹ and create a log of incidents to inform future online safety developments
 - provide (or identify sources of) training and advice for staff/governors/parents/carers/learners
 - liaise with (school/local authority) technical staff, pastoral staff and support staff (as relevant)
-

- meet regularly with the online safety governor to discuss current issues, review (anonymised) incidents and if possible, filtering and monitoring logs
- attend relevant governing body meetings/groups
- report regularly to headteacher/senior leadership team.
- liaises with the local authority/relevant body.

Designated Safeguarding Person (DSP)

The Designated Safeguarding Person should be trained in online safety issues and be aware of the potential for serious safeguarding issues to arise from:

- sharing of personal data
- access to illegal/inappropriate materials
- inappropriate online contact with adults/strangers
- potential or actual incidents of grooming
- online bullying.

Curriculum Leads

Curriculum Leads will work with the online safety lead to develop a planned and coordinated online safety education programme. This will be provided through:

- a discrete programme
- the Digital Competence Framework
- personal and social education/sex and relationships education
- assemblies and pastoral programmes
- through relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week.

Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- they understand that online safety is a core part of safeguarding
- they have read, understood and signed the staff acceptable use agreement (AUA)
- they immediately report any suspected misuse or problem to the Head Teacher or Deputy Head Teacher in their absence for investigation/action, in line with the school safeguarding procedures. A log of the incident will also be added to MyConcern safeguarding tool.
- all digital communications with learners and parents/carers should be on a professional level and only carried out using official school systems

- online safety issues are embedded in all aspects of the curriculum and other activities
- ensure learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where lessons take place using live-streaming or video-conferencing, staff must have full regard to national safeguarding guidance and local safeguarding policies and should take note of the guidance contained in the Live-streaming and video-conferencing: safeguarding principles and practice guidance.
 - Keeping Learners Safe (Paragraph 7.6) states: "Safeguarding is an integral principal of digital learning and the safety and welfare of learners must take precedence over all other considerations. Safeguarding must be integral to the delivery of live-streamed lessons to ensure learners are appropriately protected."
- they have a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- they model safe, responsible and professional online behaviours in their own use of technology, including out of school and in their use of social media.

Network manager/technical staff

The local authority is responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy and Technical Security Policy in order to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack
- the school meets (as a minimum) the required online safety technical requirements as identified by the local authority or other relevant body
- users may only access the networks and devices through a properly enforced password protection policy
- they keep up-to-date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of the technical and communications systems is regularly monitored in order that any misuse/attempted misuse can be reported to the Head Teacher for investigation and action

Learners

- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology
- should avoid plagiarism and uphold copyright regulations
- will be expected to know and follow school Online Safety Policy
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.

Parents and carers

The school will take every opportunity to help parents and carers understand these issues through:

- providing them with a copy of the learners' acceptable use agreement
- publish information about appropriate use of social media relating to posts concerning the school
- seeking their permissions concerning digital images, cloud services etc
- providing opportunities for parents and carers to improve their understanding of online safety through parents'/carers' evenings, newsletters, letters, website, Hwb, learning platform and information about national/local online safety campaigns and literature

Parents and carers will be encouraged to support the school in:

- reinforcing the online safety messages provided to learners in school

Community users

Community users who access school systems/website/Hwb/learning platforms as part of the wider school provision will be expected to sign a community user AUA before being provided with access to school systems.

The school encourages the engagement of agencies/members of the community who can provide valuable contributions to the online safety provision and actively seeks to share its knowledge and good practice with other schools and the community.

Online Safety Group

The Online Safety Group has the following members

- online safety lead
- Designated Safeguarding Person
- senior leaders
- online safety governor
- learners

Members of the Online Safety Group will assist the Online Safety Lead with:

- the production/review/monitoring of the school Online Safety Policy/documents
- the production/review/monitoring of the school filtering policy (if possible and if the school chooses to have one) and requests for filtering changes
- mapping and reviewing the online safety education provision – ensuring relevance, breadth and progression and coverage of the Digital Competence Framework
- reviewing network/filtering/monitoring/incident logs, where possible
- encouraging the contribution of learners to staff awareness, recent trends and the school online safety provision
- consulting stakeholders – including staff/parents/carers about the online safety provision
- monitoring improvement actions identified through use of the 360 degree safe Cymru self-review tool.

An Online Safety Group terms of reference template can be found in the appendices.

Professional Standards

There is an expectation that national [professional standards](#) will be applied to online safety as in other aspects of school life i.e.

- there is a consistent emphasis on the central importance of literacy, numeracy, digital competence and digital resilience. Learners will be supported in gaining skills across all areas of learning and every opportunity will be taken to extend learners' skills and competence
- there is a willingness to develop and apply new techniques to suit the purposes of intended learning in a structured and considered approach and to learn from the experience.
- practitioners are able to reflect on their practice, individually and collectively, against nationally agreed standards of effective practice and affirm and celebrate their successes

- policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.

Policy

Online Safety Policy

The school Online Safety Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy
- is regularly reviewed in a collaborative manner, taking account of online safety incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they can use digital technologies responsibly, protecting themselves and the school and how they can use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and online safety incidents, including external support mechanisms
- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction and through the Microsoft Team for Brynteg School.
- is published on the school website.

Acceptable use

The school has defined what it regards as acceptable/unacceptable use and this is shown in the tables below.

Acceptable use agreements

The Online Safety Policy and appendices define acceptable use at the school. Within the appendices there are acceptable use agreements for:

- learners – differentiated by age. Learners will be introduced to the acceptable use rules at induction, the start of each school year and regularly re-enforced during lessons, assemblies and by posters/splash screens around the school.
- staff /volunteer AUAs will be agreed and signed by staff and volunteers
- parent/carer AUAs inform them of the expectations of acceptable use for their children and seek permissions for digital images, the use of cloud systems etc.
- community users that access school digital technology systems will be required to sign an AUA.

The acceptable use agreements will be communicated/re-enforced through:

- staff induction
- posters/notices around where technology is used
- communication with parents/carers
- built into education sessions
- school website
- peer support

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not access online content (including apps, games, sites) to make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	<p>Any illegal activity for example:</p> <ul style="list-style-type: none"> • Child sexual abuse imagery* • Child sexual abuse/exploitation/grooming • Terrorism • Encouraging or assisting suicide • Offences relating to sexual images i.e., revenge and extreme pornography • Incitement to and threats of violence • Hate crime • Public order offences - harassment and stalking • Drug-related offences • Weapons / firearms offences • Fraud and financial crime including money laundering <p>N.B. Schools should refer to guidance about dealing with self-generated images/sexting - <u>guidance about dealing with nudes and semi-nudes being shared.</u></p>					X

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not undertake activities that might be classed as cyber-crime under the Computer Misuse Act (1990)	<ul style="list-style-type: none"> Using another individual's username or ID and password to access data, a program, or parts of a system that the user is not authorised to access (even if the initial access is authorised) Gaining unauthorised access to school networks, data and files, through the use of computers/devices Creating or propagating computer viruses or other harmful files Revealing or publicising confidential or proprietary information (e.g., financial / personal information, databases, computer / network access codes and passwords) Disable/Impair/Disrupt network functionality through the use of computers/devices Using penetration testing equipment (without relevant permission) <p>N.B. Schools will need to decide whether these should be dealt with internally or by the police. Serious or repeat offences should be reported to the police. Under the Cyber-Prevent agenda the National Crime Agency has a remit to prevent learners becoming involved in cyber-crime and harness their activity in positive ways – read more about this: NCA Cyber Choices Programme</p>					X
Users shall not undertake activities that are not illegal but are classed as unacceptable in school policies:	Accessing inappropriate material/activities online in a school setting including pornography, gambling, drugs. (Informed by the school's filtering practices and/or AUAs)			X	X	
	Promotion of any kind of discrimination				X	
	Using school systems to run a private business				X	
	Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school				X	
	Infringing copyright				X	
	Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	X	

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
	Any other information which may be offensive to others or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

When using communication technologies the school considers the following as good practice:

- when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school
- any digital communication between staff and learners or parents/carers (e-mail, social media, learning platform, etc.) must be professional in tone and content. Personal e-mail addresses, text messaging or social media must not be used for these communications.
- staff should be expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community
- users should immediately report to a nominated person – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication

Reporting and responding

The school has in place procedures for identifying and reporting cases, or suspected cases, of online safeguarding issues/incidents and understands that because of our day-to-day contact with children our staff are well placed to observe the outward signs of these issues.

We ensure that every member of staff and every governor knows that they have an individual responsibility for reporting and that they are aware of the need to be alert to signs of abuse and neglect, and know how to respond to a learner who may disclose such issues.

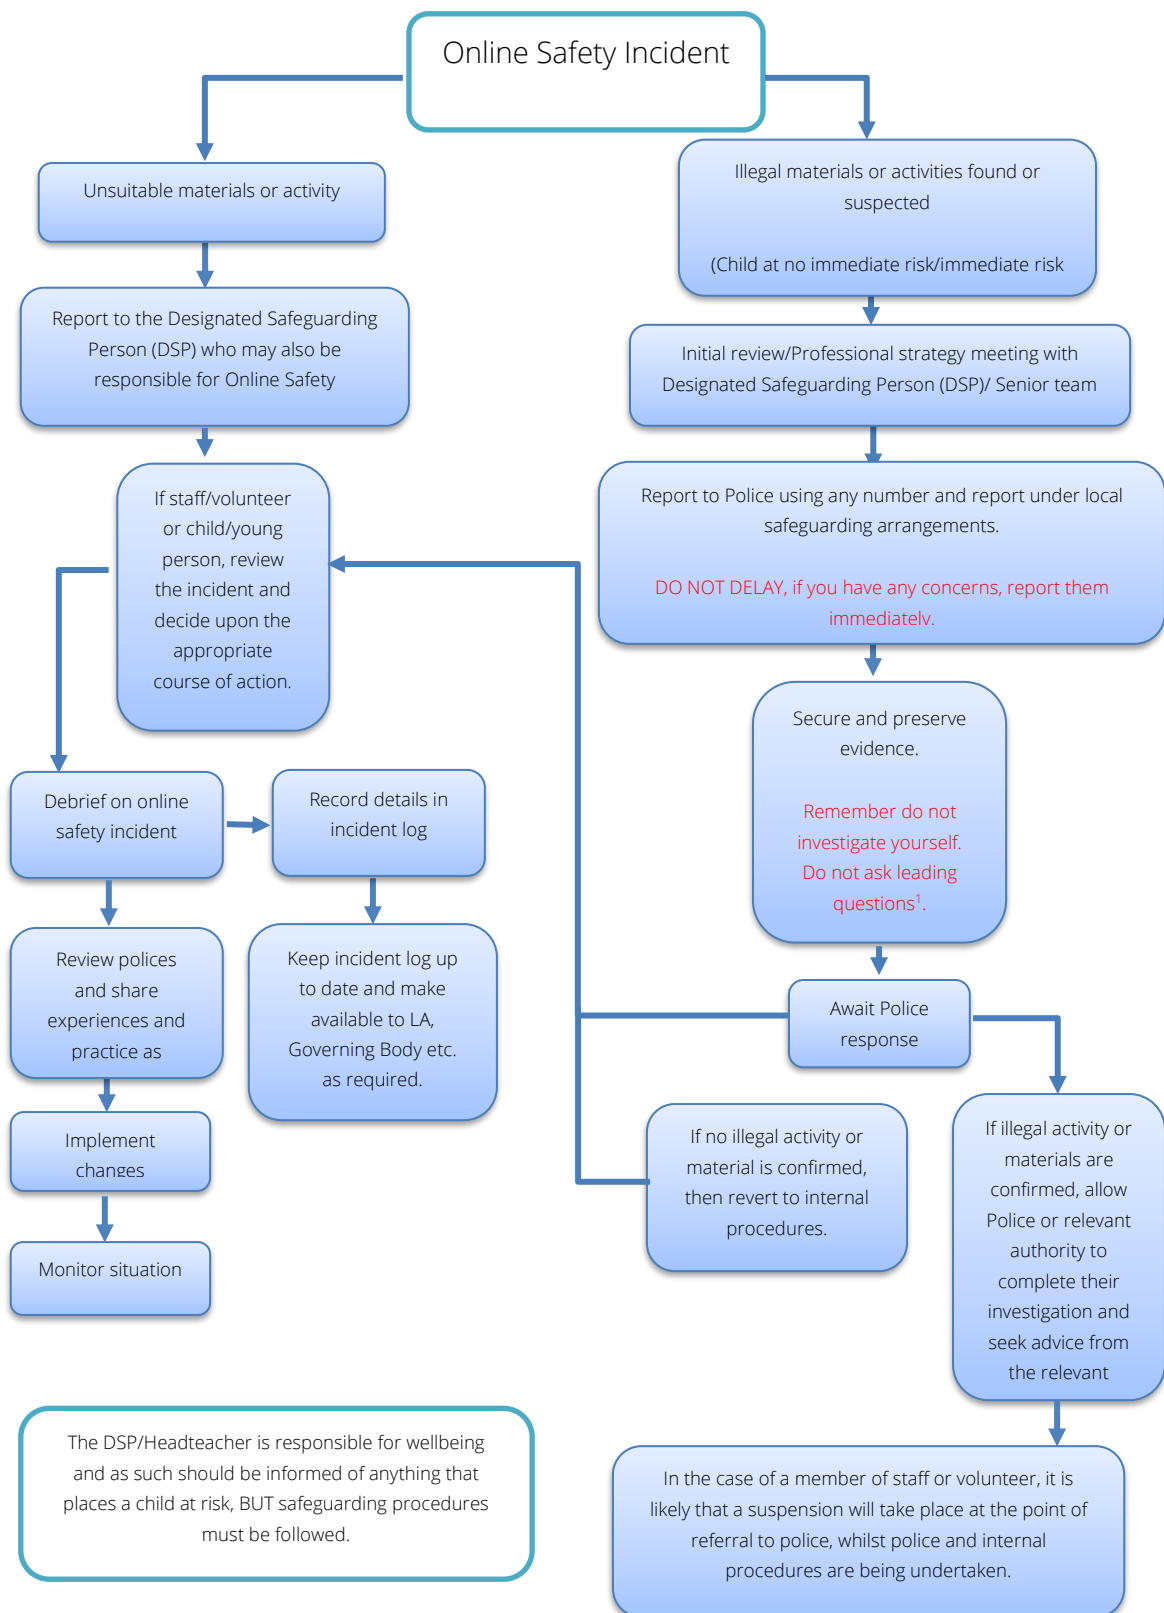

We also understand that reporting systems do not always respond to the needs of learners and that we need to identify issues and intervene early to better protect learners

The school will take all reasonable precautions to ensure online safety for all school users, but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

- there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.
- all members of the school community will be made aware of the need to immediately report online safety issues/incidents
- reports will be dealt with as soon as is practically possible once they are received
- the Designated Safeguarding Person, Online Safety Lead and other responsible staff have appropriate skills and training to deal with the various risks related to online safety
- if there is any suspicion that the incident involves child abuse images, any other illegal activity or the potential for serious harm, the incident must be escalated through the normal school safeguarding procedures and the police informed. In these circumstances any device involved should be isolated to support a potential police investigation. In addition to child abuse images such incidents would include:
 - incidents of 'grooming' behaviour
 - the sending of obscene materials to a child
 - adult material which potentially breaches the Obscene Publications Act
 - criminally racist material
 - promotion of terrorism or extremism
 - other criminal conduct, activity or materials.
- any concern about staff misuse will be reported immediately to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors and the local authority
- as long as there is no suspected illegal activity devices may be checked using the following procedures:
 - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
 - conduct the procedure using a designated computer that will not be used by learners and if necessary can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same computer for the duration of the procedure.
 - it is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
 - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see above).
 - once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does then appropriate action will be required and could include the following:

- internal response or discipline procedures
 - involvement by local authority (as relevant)
 - police involvement and/or action
- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g. peer support for those reporting or affected by an online safety incident
- incidents should be logged using MyConcern online tool and SIMS.
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police; [Professionals Online Safety Helpline](#); [Reporting Harmful Content](#); [CEOP](#); [Keeping safe online](#) on Hwb
- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions
- learning from the incident (or pattern of incidents) will be provided to:
 - the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with
 - staff, through regular briefings
 - learners, through assemblies/lessons
 - parents/carers, through newsletters, school social media, website
 - governors, through regular safeguarding updates
 - local authority/external agencies, as relevant

The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.

School actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

Responding to Learner Actions

Incidents	Refer to class teacher/tutor	Refer to Deputy Head	Refer to Headteacher	Refer to Police/Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/network/internet access	Issue a warning	Further sanction, in line with behaviour policy
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on User Actions on unsuitable/inappropriate activities).		X	X	X					
Attempting to access or accessing the school network, using another user's account (staff or learner) or allowing others to access school network by sharing username and passwords		X	X						
Corrupting or destroying the data of other users.		X	X						
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	X	X							
Unauthorised downloading or uploading of files or use of file sharing.		X							
Using proxy sites or other means to subvert the school's filtering system.		X	X						

Accidentally accessing offensive or pornographic material and failing to report the incident.		X	X		X				
Deliberately accessing or trying to access offensive or pornographic material.			X		X				
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act.			X		X				
Unauthorised use of digital devices (including taking images)			X		X				
Unauthorised use of online services		X	X						
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.		X	X		X				
Continued infringements of the above, following previous warnings or sanctions.			X		X				

Responding to Staff Actions

Incidents	Refer to line manager	Refer to Headteacher/ Principal	Refer to local authority/MAT/HR	Refer to Police	Refer to LA / Technical Support Staff for action re filtering, etc.	Issue a warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities)		x	x	x				
Deliberate actions to breach data protection or network security rules.		x	x					
Deliberately accessing or trying to access offensive or pornographic material.		x	x		x			
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software.		x	x					
Using proxy sites or other means to subvert the school's filtering system.		x			x			
Unauthorised downloading or uploading of files or file sharing.		x						
Breaching copyright or licensing regulations.		x	x					
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account.		x	x		x			
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature.		x	x					
Using personal e-mail/social networking/messaging to carry out digital		x	x					

communications with learners and parents/carers								
Inappropriate personal use of the digital technologies e.g. social media / personal e-mail.		X	X					
Careless use of personal data, e.g. displaying, holding or transferring data in an insecure manner.		X	X					
Actions which could compromise the staff member's professional standing.		X						
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.		X	X					
Failing to report incidents whether caused by deliberate or accidental actions.		X	X					
Continued infringements of the above, following previous warnings or sanctions.		X	X					

Education

Online Safety Education Programme

While regulation and technical solutions are very important, their use must be balanced by educating learners to take a responsible approach. The education of learners in online safety is therefore an essential part of the school's safeguarding provision. Learners need the help and support of the school to recognise and avoid online safety risks and develop their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways

- a planned online safety curriculum across all year groups and a range of subjects, (e.g. DCF/PSE/RSE/Health and Well-being) and topic areas and should be regularly revisited
- key online safety messages should be reinforced as part of a planned programme of assemblies and tutorial/pastoral activities
- it incorporates/makes use of relevant national initiatives and opportunities e.g. [Safer Internet Day](#) and [Anti-bullying week](#)

- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language. Learners considered to be at increased risk online (e.g. children in care, SEND learners, learners experiencing loss or trauma or mental health issues) are provided with targeted or differentiated online safety education
- learners should be taught in all lessons to be critically aware of the materials/content they access online and be guided to validate the accuracy of information
- learners should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- learners should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making.
- staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites the young people visit
- it is accepted that from time to time, for good educational reasons, students may need to research topics, (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the technical staff (or other nominated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need
- the online safety education programme will be regularly audited and evaluated to ensure the quality of learning and outcomes.

Contribution of Learners

The school acknowledges, learns from and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through:

- mechanisms to canvass learner feedback and opinion.
- the Online Safety Group has learner representation
- learners contribute to the online safety education programme e.g. peer education, digital leaders leading lessons for younger learners, online safety campaigns

Staff/volunteers

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- a planned programme of formal online safety, cyber security and data protection training will be made available to all staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- the training will be an integral part of the school's annual safeguarding and data protection training for all staff
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements. It includes explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours
- the Online Safety Lead and Designated Safeguarding Person (or other nominated person) will receive regular updates through attendance at external training events, (e.g. Hwb Keeping safe online training events, from the Regional Consortium/SWGfL/LA/other relevant organisations) and by reviewing guidance documents released by relevant organisations
- this Online Safety Policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days
- the Online Safety Lead (or other nominated person) will provide advice/guidance/training to individuals as required.

Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any sub-committee/group involved in technology/online safety/health and safety/safeguarding. This may be offered in a number of ways such as:

- Hwb training – [Online safety for governors](#)
- attendance at training provided by the local authority or other relevant organisation (e.g. SWGfL)
- participation in school training/information sessions for staff or parents

A higher level of training will be made available to (at least) the Online Safety Governor.

Families

The school will seek to provide information and awareness to parents and carers through:

- regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes
- the learners – who are encouraged to pass on to parents the online safety messages they have learned in lessons and by learners leading sessions at parent/carers evenings.
- letters, newsletters, website, learning platform, Hwb
- high profile events/campaigns e.g. [Safer Internet Day](#)
- reference to the relevant web sites/publications, e.g. Hwb [Keeping safe online](#), [The UK Safer Internet Centre](#), [Childnet International](#) (see Appendix for further links/resources).
- Sharing good practice with other schools in clusters and or the local authority

The school recognises the support and advice that may be provided by external groups and agencies and values their contribution to school programmes and events.

The school is committed to sharing its good practice with other schools and education settings.

Technology

The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in place on a regular basis and explain that everyone is responsible for online safety and data protection.

Filtering

- the school filtering policies are agreed by senior leaders and technical staff and are regularly reviewed and updated in response to changes in technology and patterns of online safety incidents/behaviours
- the school manages access to content across its systems for all users. The filtering provided meets the standards defined in the Welsh Government [Recommended web filtering standards for schools](#) and the UK Safer Internet Centre [Appropriate filtering](#)
- internet access is filtered for all users
- illegal content (e.g. child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly

- there are established and effective routes for users to report inappropriate content
- there is a clear process in place to deal with requests for filtering
- there is an appropriate and balanced approach to providing access to online content according to role and/or need
- filtering logs are regularly reviewed and alert the school to breaches of the filtering policy, which are then acted upon.

If necessary, the school will seek advice from, and report issues to, the [Report Harmful Content](#) site.

Monitoring

The school follows the UK Safer Internet Centre [Appropriate Monitoring](#) guidance and protects users and school systems through:

- physical monitoring (adult supervision in the classroom)
- internet use is logged, regularly monitored and reviewed
- filtering logs are regularly analysed and breaches are reported to senior leaders
- pro-active alerts inform the school of breaches to the filtering policy, allowing effective intervention.

Users are made aware, through the acceptable use agreements, that monitoring takes place.

Technical Security

School technical systems will be managed in ways that ensures that the school meets recommended technical requirements there will be regular reviews and audits of the safety and security of school technical systems

- servers, wireless systems and cabling are securely located and physical access restricted
- there are rigorous and verified back-up routines, including the keeping of copies off-site or in the cloud
- all users have clearly defined access rights to school technical systems and devices. Details of the access rights available to groups of users will be recorded by the DCF Lead and will be reviewed, at least annually, by the Online Safety Group
- all users (adults and learners) have responsibility for the security of their username and password, must not allow other users to access the systems using their log on details. Sharing of passwords or ID and passwords could lead to an offence under the Computer Misuse Act 1990. Users must immediately report any suspicion or evidence that there has been a breach of security

- all school networks and system will be protected by secure passwords. Passwords must not be shared with anyone. All users will be provided with a username and password by the DCF Lead who will keep an up to date record of users and their usernames
- the master account passwords for the school systems are kept in a secure place, e.g. school safe
- passwords should be long, (8 alphanumeric characters).
- records of learner usernames and passwords for Foundation Phase learners can be kept in an electronic or paper-based form, but they must be securely kept when not required by the user.
- password requirements for learners at Key Stage 2 and above should increase as learners progress through school
- The Head Teacher and Deputy Head Teacher are responsible for ensuring that software licence logs are accurate and up-to-date and that regular checks are made to reconcile the number of licences purchased against the number of software installations
- an appropriate system is in place for users to report any actual/potential technical incident/security breach
- appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices, etc., from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software.
- an agreed policy is in place for the provision of temporary access of 'guests', (e.g. trainee teachers, supply teachers, visitors) onto the school systems
- an agreed policy is in place regarding the extent of personal use that users (staff/learners/community users) and their family members are allowed on school devices that may be used out of school
- an agreed policy is in place that allows staff to/forbids staff from downloading executable files and installing programmes on school devices
- an agreed policy is in place regarding the use of removable media (e.g. memory sticks/CDs/DVDs) by users on school devices.
- systems are in place that prevent the unauthorised sharing of personal data unless safely encrypted or otherwise secured. Mobile technologies
- The school acceptable use agreements for staff, learners, parents and carers outline the expectations around the use of mobile technologies.

The school allows:

	School devices			Personal devices		
	School owned for individual use	School owned for multiple users	Authorised device	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	No	Yes	Yes
Full network access	Yes	Yes	Yes	No	No	No
Internet only				No	Yes	Yes
No network access				No	Yes	Yes

Social media

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to learners through:

- ensuring that personal information is not published
- education/training being provided including acceptable use, age restrictions, social media risks, digital and video images policy, checking of settings, data protection and reporting issues
- clear reporting guidance, including responsibilities, procedures and sanctions
- risk assessment, including legal risk
- guidance for learners, parents/carers

School staff should ensure that:

- no reference should be made in social media to learners, parents/carers or school staff
- they do not engage in online discussion on personal matters relating to members of the school community
- personal opinions should not be attributed to the school or local authority
- security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information
- they act as positive role models in their use of social media

When official school social media accounts are established there should be:

- a process for approval by senior leaders
- clear processes for the administration and monitoring of these accounts – involving at least two members of staff
- a code of behaviour for users of the accounts
- systems for reporting and dealing with abuse and misuse
- understanding of how incidents may be dealt with under school disciplinary procedures.

Personal use

- personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- personal communications which do not refer to or impact upon the school are outside the scope of this policy
- where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken

Monitoring of public social media

- As part of active social media engagement, the school will pro-actively monitor the Internet for public postings about the school
- the school should effectively respond to social media comments made by others according to a defined policy or process
- when parents/carers express concerns about the school on social media we will urge them to make direct contact with the school, in private, to resolve the matter. Where this cannot be resolved, parents/carers should be informed of the school complaints procedure.

Digital and video images

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm

- should a maintained school or setting choose to use live-streaming or video-conferencing, governing bodies, headteachers and staff must have full regard to national safeguarding guidance and local safeguarding policies and should take note of the guidance contained in the [Live-streaming and video-conferencing: safeguarding principles and practice guidance](#) and [Keeping Learners Safe](#) para 7.6

- when using digital images, staff should inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet, e.g. on social networking sites
- in accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other *learners* in the digital/video images
- staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, storage, distribution and publication of those images. Staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school equipment. The personal equipment of staff should not be used for such purposes
- care should be taken when taking digital/video images that learners are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute
- learners must not take, use, share, publish or distribute images of others without their permission
- photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with good practice guidance on the use of such images
- learners' full names will not be used anywhere on a website or blog, particularly in association with photographs
- written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media.
- parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy
- images will be securely stored on the school network in line with the school retention policy

Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through

- Public-facing website
- Social media – Facebook/Twitter
- Online newsletters
- Seesaw

The school website is managed/hosted by Schoolsays.co.uk. The school ensures that good practice has been observed in the use of online publishing e.g. use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is no risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected and full names are not published.

Data Protection

Personal data will be recorded, processed, transferred and made available according to the current data protection legislation.

The school:

- has a Data Protection Policy.
- implements the data protection principles and is able to demonstrate that it does so
- has paid the appropriate fee to the Information Commissioner's Office (ICO)
- has appointed an appropriate Data Protection Officer (DPO) who has a high level of understanding of data protection law and is free from any conflict of interest.
- has a 'Record of Processing Activities' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it
- the Record of Processing Activities lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis is listed
- has an 'information asset register' in place and knows exactly [what personal data is held](#), where, why and which member of staff has responsibility for managing it
- information asset register lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis will have also been listed
- will hold the minimum personal data necessary to enable it to perform its function and will not hold it for longer than necessary for the purposes it was collected for. The school 'retention schedule' supports this
- data held is accurate and up to date and is held only for the purpose it was held for. Systems are in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals
- provides staff, parents, volunteers, teenagers and older children with information about how the school looks after their data and what their rights are in a clear Privacy Notice

- has procedures in place to deal with the individual rights of the data subject,
- carries out Data Protection Impact Assessments (DPIA) where necessary e.g. to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier
- IT system security is ensured and regularly checked. Patches and other security essential updates are applied promptly to protect the personal data on the systems. Administrative systems are securely ring fenced from systems accessible in the classroom/to learners
- has undertaken appropriate due diligence and has data protection compliant contracts in place with any data processors
- understands how to share data lawfully and safely with other relevant data controllers
- has clear and understood policies and routines for the deletion and disposal of data
- reports any relevant breaches to the Information Commissioner within 72hrs of becoming aware of the breach as required by law. It also reports relevant breaches to the individuals affected as required by law. In order to do this it has a policy for reporting, logging, managing, investigating and learning from information risk incidents
- provides protection training for all staff at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff

When personal data is stored on any mobile device or removable media the:

- data will be encrypted and password protected.
- device will be password protected
- device will be protected by up to date virus and malware checking software
- data will be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written and know who to pass it to in the school
- only use encrypted mobile devices (including USBs) for personal data, particularly when it is about children

- will not transfer any school personal data to personal devices.
- use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data
- transfer data using encryption, a secure email account (where appropriate), and secure password protected devices.

Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g. online safety education, awareness and training
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership and Governors
- parents/carers are informed of patterns of online safety incidents as part of the school's online safety awareness raising
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local online safety strategy.

Learner Acceptable Use Agreement

LEARNERS WILL BE MADE AWARE OF THIS INFORMATION BUT NOT ASKED TO SIGN

Introduction

Digital technologies have become integral to the lives of children and young people, both within and outside schools. These technologies are powerful tools, which open up new opportunities for everyone. They can stimulate discussion, encourage creativity and stimulate awareness of context to promote effective learning. Learners should have an entitlement to safe access to these digital technologies.

This acceptable use agreement is intended:

- to ensure that learners will have good access to devices and the internet, be responsible users and stay safe while using digital technologies for educational, personal and recreational use
- to help learners understand good online behaviours that they can use in school, but also outside school
- to protect school devices and networks from accidental or deliberate misuse that could put the security of the systems and users at risk.

Acceptable Use Agreement

When I use devices I must behave responsibly to help keep me and other users safe online and to look after the devices.

For my own personal safety:

- I understand that what I do online will be supervised and monitored and that I may not be allowed to use devices in school unless I follow these rules and use them responsibly
- I will only visit internet sites that adults have told me are safe to visit
- I will keep my username and password safe and secure and not share it with anyone else
- I will be aware of “stranger danger” when I am online
- I will not share personal information about myself or others when online
- If I arrange to meet people off-line that I have communicated with online, I will do so in a public place and take a trusted adult with me
- I will immediately tell an adult if I see anything that makes me feel uncomfortable when I see it online.

I will look after the devices I use, so that the school and everyone there can be safe:

- I will handle all the devices carefully and only use them if I have permission.

- I will not try to alter the settings on any devices or try to install any software or programmes.
- I will tell an adult if a device is damaged or if anything else goes wrong.
- I will only use the devices to do things that I am allowed to do.

I will think about how my behaviour online might affect other people:

- When online, I will act as I expect others to act toward me.
- I will not copy anyone else's work or files without their permission.
- I will be polite and responsible when I communicate with others and I appreciate that others may have different opinions to me.
- I will not take or share images of anyone without their permission.

I know that there are other rules that I need to follow:

- I will only use my own personal devices (mobile phones/USB devices etc.) in the school if I have permission. If I am allowed, I still have to follow all the other school rules if I use them.
- Where work is protected by copyright, I will not try to download copies (including music and videos).
- When I am using the internet to find information, I should take care to check that the information is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.
- I should have permission if I use the original work of others in my own work.

I understand that I am responsible for my actions, both in and out of school:

- I know that I am expected to follow these rules in school and that I should behave in the same way when out of school as well.
- I understand that if I do not follow these rules, I may be subject to disciplinary action.

Parent Acceptable Use Agreement

Digital technologies have become integral to the lives of children and young people, both within and outside schools. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This acceptable use policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk
- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their online behaviour.

The school will try to ensure that learners will have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users. A copy of the learner acceptable use agreement is attached to this permission form, so that parents/carers will be aware of the school expectations of the learners in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school's work.

Permission Form

Parent/Carers Name: **Name(s) of Learners**

As the parent/carer of the above learners, I give permission for my child to have access to the internet and to ICT systems at school.

I understand that the school has discussed the acceptable use agreement with my child and that they have received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of the school.

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my child's activity on the systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the acceptable use agreement.

I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's online safety.

Staff (and Volunteer) Acceptable Use Policy Agreement

School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that learners receive opportunities to gain from the use of digital technology. I will, where possible, educate the children and young people in my care in the safe use of digital technology and embed online safety in my work with children and young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communications systems
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, e-mail, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of the school
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.

- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using school systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner. I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website/VLE) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in the school in accordance with school policies.
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any online activity that may compromise my professional responsibilities.

The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my personal mobile devices in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not use personal e-mail addresses on the school ICT systems.
- I will not open any hyperlinks in e-mails or any attachments to e-mails, unless the source is known and trusted, or if I have any concerns about the validity of the e-mail (due to the risk of the attachment containing viruses or other harmful programmes).
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist or extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.

- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the school/LA Personal Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use policy applies not only to my work and use of school digital technology equipment in the school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school.
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors and/or the local authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of the school) and my own devices (in the school and when carrying out communications related to the school) within these guidelines.

Acceptable Use Agreement for Community Users

This acceptable use agreement is intended to ensure that:

- community users will be responsible and stay safe while using school systems and devices and will be protected from potential harm in their use
- that school systems, devices and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

Acceptable Use Agreement

I understand that I must use school systems and devices in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems, devices and other users. This agreement will also apply to any personal devices that I bring into the school:

- I understand that my use of school systems and devices will be monitored.
- I will not use a personal device that I have brought into school for any activity that would be inappropriate in a school.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist and extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will not access, copy, remove or otherwise alter any other user's files, without permission.
- I will ensure that if I take and/or publish images of others I will only do so with their permission. I will not use my personal equipment to record these images, without permission. If images are published it will not be possible to identify by name, or other personal information, those who are featured.
- I will not publish or share any information I have obtained whilst in the school on any personal website, social networking site or other means, unless I have permission from the school.
- I will not, without permission, make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a school device, nor will I try to alter computer settings, unless I have permission to do so.
- I will not disable/cause any damage to school equipment, or the equipment belonging to others.
- I will immediately report equipment/software damage/faults, however this may have happened.
- I will ensure that I have permission to use the original work of others in my own work.

- I will not download or distribute copies of work protected by copyright (including music and videos).
- I understand that if I fail to comply with this acceptable use agreement, the school has the right to remove my access to school systems/devices

I have read and understand the above and agree to use the school digital technology systems (both in and out of the school) and my own devices (in the school and when carrying out communications related to the school) within these guidelines.
